WORK EXPERIENCE

2022
Present

QuaverEd (Nashville, TN)

Video Editor & Production. Constantly challenging myself to find new ways to improve our production studio, filming practices and editing techniques. As a part of a 20 person video team, I have found myself lucky enough to be at a position of leadership during productions while still able to follow others in situations that are best for the team and given project.

2021

FOH (Miami, FL)

Creative Photo & Video Senior Specialist. Responsible for production of all product, lifestyle, and event media; including video, still photography, and animations. Working in a 4 person creative team, constantly collaborating and communicating to meet deadlines and innovate in all creative facets.

2021

Marketing Clique (Miami, FL)

Video editor. Commissioned to take footage from different videographer and splice with stock footage and post-recorded audio to create 5 different legal videos, 2 of which were in the Spanish language.

2019
2021

Holley Performance Parts (Bowling Green, KY)

Product photographer. Responsible for photographing automotive parts with a white background for e-commerce. Headlined a complete renovation of a video series demonstrating different lines of car exhaust that were created by Holley engineers. Brought several new ideas to the team with new angles, editing techniques and gear that would improve our workflow.

2018
2021

Trash Queen (Louisville, KY)

Lead photographer, videographer and editor. Collaborated directly with the owner to create a progressive, creative, and innovative approach to all content for e-commerce and social media content. Samples of work can be found @shoptrashqueen on their Instagram.

2020

Narrative Short Films (Bowling Green, KY)

Myriad of experience working as (in order by most frequented cinematographer, colorist, camera operator, G&E, editor, director, producer, production designer and writer. Projects participated in have all been low budget and mostly smaller, tight-knit crews. These film sets have given me an excellent foundation of experinece that I have built upon throughout the years.

EDUCATION

2023

After Effects Academy Vol. 1-3

These three courses, offered by Motion Science and taught by Cameron Pierron, cover everything from the fundamentals to advanced techniques of animation and motion graphics in After Effects.

2015
2019

Western Kentucky University - B.A. in Film Production

Program is heavily focused on the art of storytelling. Most of my time there was spent sharpening the precision of my cinematography skills. I know production equipment like the back of my hand, allowing me to execute any sort of lighting setup quickly and safely. I took and excelled at extra courses in video editing as well as a myriad of adobe-focused courses like after effects, photoshop, and audition with sound mixing/design.

I minored in entrepreneurship, which allowed me to greatly improve my understanding of economics, business, humanity, and how to effectively communicate with clients to find exactly they are looking for in any given project.

ACHIEVEMENTS

2021

FOH Team Member of the Month - December

A monthly award, given to those going above the standard of achievement to better their teammates and company's status. According to Simone Mayer, the CEO of FOH, I was the person to get the award earliest in their career with the company out of their now 20 years of existence.

2021

Pottery Barn Social Media Feature

Photography of mine, shot for a food and wellness blog called Dolly & Bud, has been featured on Pottery Barn's Instagram page - being seen by their 3.2 million followers.

2020

River Bend Film Festival

Directed by Rob Franssen, our collaborative thesis film, *The Farmer (2019)*, was accepted into the River Bend Film Festival.
